EDUCATION

- Computer Engineering | Medicaps University,Indore — *CGPA: 7.1 | (Aug '24 - Jun '28)*
- XII (MP BOARD) | Govt School of Excellence , Dhar — *72.6% | 2024*

PROJECTS

MediNotes - Educational Platform

medinotes.in | Next.js, TypeScript, PostgreSQL, Razorpay

• Built an educational platform with 1M+ views, serving 6,500+ registered users and generating ₹ 20k+ revenue

• Developed user authentication, content management, and Razorpay payment integration for paid resources

• Built backend APIs, an admin dashboard, and automated document generation for platform workflows

Tropos - Atmospheric Intelligence Platform

troposs.vercel.app | Next.js, Google Earth Engine, ISRO INSAT-3DR, Gemini

• Built an AI-powered platform for real-time pollution hotspot detection and emission-source tracing

• Integrated ISRO satellite data and Google Earth Engine for geospatial environmental analysis

• Used Gemini AI to analyze pollution data and generate actionable insights

SKILLS

• **Languages:** JavaScript, Python, Java, SQL, HTML/CSS

• **Full-Stack:** Next.js, React, Tailwind CSS, PostgreSQL, Supabase, REST APIs

• **AI Tools:** Claude Code, Trae, Antigravity, Codex

• **Cloud & DevOps:** Vercel, Cloudflare, Render, Git

ACHIEVEMENTS

Runner-Up | PyData Indore Hackathon

Built an atmospheric intelligence engine leveraging ISRO satellite telemetry, Google Earth Engine, and Gemma to identify emission sources in real-time.

Shortlisted | Smart India Hackathon 2026 (Internal)

Developed KisanFlow, an intelligent procurement-slot management platform that predicts farmer waiting times, recommends optimal arrival slots, and provides live queue monitoring to reduce unnecessary waiting.

Platform Scale | Medinotes:

Scaled a self-built academic platform to 1M+ impressions and 5,000+ active students, generating ₹20k+ revenue through 100% organic campus adoption.
